Senior History

On that fall marning almost four years aga, we all staad around the gym wandering what the future held far us here at Bishap Nall High School. About 9 a'clack we taak aur places in the gym where Father Junk tald us what was to be expected of us in the future.

With faur of us sharing a lacker, the first year was rather difficult. However, that year also had its gay maments, such as the faatball and basket-ball aames and the amateur shows.

On returning as Saphomares we were glad to find the new building ready for use. It was during our Saphamare year that the National Hanar Society was arganized. It was also during this year that we had our first try in the literary field with the publication of the MAGNIFICAT. As Juniors we edited the WARRIOR, and finally as Seniors, the MARQUETTE.

In the beginning of our Jun'or year the Student Council was organized to promote a better relotionship between the students and the faculty. Its biggest project was the magazina drive, the proceeds of which were to help beautify the grounds.

This year the Student Council, under the oble leadership of Bob Austgen, is again doing the best in its power to improve our school.

For those in the Choral Club this hos truly been on eventful year. Their most important activity was the presentation of the operetta, the "Mikado." Now, os we look bock at the hoppy times that we have had, it is not easy to say good-bye to the school where we hove spent so much of our time. For during these years we have greatly increased our knowledge and have gained o small part of the wisdom which we will næd in the years before us. It is now our duty when going out into the world to moke use of our Catholic education, and by our good example to work for the greater honor and glory of God.

We Three

Seeing much, suffering much, and studying much, are the pillars of learning.

Benjamin Disraeli

To become an able man in any profession, there are three things necessary: Nature, Study, and Practice.

Aristotle

We think according to nature; we speak according to rules; we act according to custom.

Francis Bacon

Good breeding is the result of much good sense, some good nature, and a little self-denial. Lord Chesterfield

Self-reverence, self knowledge, self-control; these three alone lead life to sovereign power. Alfred Lord Tennyson

I am not afraid of tomorrow, for I have seen yesterday, and I love today. William Allen White

Some read to think, these are rare; some to write, these are common; some to talk, these are the majority.
